

Horizontal Glass Panels

Elevate your tented event experience with our newest upgrade: horizontal glass panels designed specifically for our Black Frame and Conservatory Tents.

A PEAK Market Exclusive

Our horizontal glass panels were designed with versatility in mind: Evoke english garden vibes, charming country feels or bring a more modern, industrial edge to your event.

The optional black horizontal glass panels add a touch of contemporary flair, while the clear tops and black frame create a harmonious blend of transparency and sophistication.
